

What's On Tap?

TM1100 Direct Tapping Machine— Lightweight But Sturdy For Tough, In-Ditch Jobs

- New **flip clamp** feed system is fast and easy to use. Just flip the yoke to engage the boring bar.
- Machine weighs just 40 lbs. (18.2 kg) so it's easier to handle.
- Corp insertion tools included with machine.
- Order saddles and drill taps separately and get just the sizes needed for the job.
- Can be converted to a drilling machine for up to 2" saddle taps.

DT75 Drill Tap

DT75 and DT100 drill taps perform fast with six cutting edges for clean threads and less leaks. They feature a sharp point for easy starting.
