

# ✓ WHY REED?

## BENEFITS FOR REED CUSTOMERS & COMMUNITY

PIPE TOOLS & VISES  
SINCE 1896

(L-R) Scott Wright (5th generation), Ralph Wright (4th - Chairman Emeritus - deceased), and Mark Wright (5th)

Reed Manufacturing has been producing fine tools for worldwide professional trades since its founding, in 1896, by Carl Reed. The company was purchased in 1902 by Reuben Wright with money he made selling water and hardware during the 1849 California Gold Rush, followed by successful timber businesses in Wisconsin, Michigan, and Western Pennsylvania. The company continues to be operated by his descendants: fifth generation members of the Wright family. Mark Wright and Scott Wright serve as President, Manufacturing & Product Development and President, Sales & Finance, respectively. At Reed in several roles for more than 28 years each, Mark and Scott uphold the family traditions of product innovation, highest quality pipe tools, great customer service, a cutting edge factory and extra value to customers.

Five generations of Wrights have also provided a great place to work and exceptional contributions to the community. Reed Manufacturing is a big supporter of the Erie County United Way (\$3,235 per capita for 2017), the Second Harvest Food Bank along with WQLN Public Television, among others. Additionally, Reed Associates are encouraged to give back to the community through gifts of money and service.

Chris Reger

The secret of Reed's continuing, increasing success can be attributed to its corporate culture of excellence and the quality of its Associates, who are individually committed to exceptional performance and service. Reed engineers developed many of the most innovative and effective tools in the industry – such as the Quick Release™ Tubing Cutter, the Hinged Cutter™, the Rotary™ Cutter and the Universal Pipe Cutter. Many of these tools have been copied by others, but through continuous improvements and everyday dedication to quality workmanship, Reed products remain the finest in the world.

The goals of each Reed Associate are to ship 95% of orders within three business days, to provide immediate, informed responses to customer inquiries and to produce 100% error-free work. Reed works diligently to cultivate relationships with dependable distributors to reach the end-user market. Selling through traditional, local distributors is the best avenue to strengthen ties with Reed tool users. The strong links in the customer service chain – from product development and manufacturing, through order processing and inquiry fulfillment, to distribution – make Reed a leader in customer satisfaction. Reed identifies the best people to provide the best quality tools which results in the best service available.

**BEST Service** + **BEST Quality** + **BEST People** = **The LOWEST TOTAL COST**

# REED

## MISSION STATEMENT

*Reed will develop a growing market position in the pipe tool industry by providing the most innovative and the highest quality tools, the best customer service, the lowest total cost and the greatest value to distributors and tool users.*

*Reed seeks to utilize very effective personnel, the most modern, cost-effective equipment, and total quality management concepts in order to achieve challenging objectives. Reed also seeks to provide a great place to work, to be environmentally responsible and to be a good corporate citizen.*

# SPECIAL FEATURES

PIPE TOOLS & VISES  
SINCE 1896

Throughout the catalog, various symbols are used to help the reader identify key points:

**Reed Exclusive Tool** – The tool is unique, available only from Reed, offers operational cost savings or safety features, and at least one advantage to buying Reed.

**Reed Exclusive Features** – The tool has special features available only from Reed. These meaningful features are advantages to buying Reed.

**Reed Exclusive Sizes** – The tool is available in certain capacities only from Reed. These unique capacities are advantages to buying Reed.

**Reed Best Ever** – The tool has been improved over all previous versions. These continuous improvements are advantages to buying Reed.

**Reed Online Video Training** – Numerous tools offer training videos through the Reed website or YouTube.

**Reed Metric Sizes** – The tool has metric-only sizing. However, Reed offers a wide variety of other tools to fit metric pipe since most tools suit a range of sizes.

Next to many of the tools in this catalog, there is a brief statement headed by the term: "**WHY REED?**" This statement explains why that particular Reed tool is superior to any other on the market, and can be used with confidence to compare Reed products with the competition.

**New Tools** are indicated by  symbol, while models added to the Reed line are highlighted in charts in red ink. To Reed, "**NEW**" means the tool was introduced within the last 12 months.

**Reed Extra Value** – The tool offers extra cost savings over the previous Reed version – or the competitors'.

**Truck Freight Required** – These tools require truck freight due to size or weight.

## REED - REGISTERED & TRADEMARKED

**Clean Cut®**

**Clean Ream Extreme™**

**Clean Ream Plus™**

**Cutter Wheel Headquarters™**

**Thru-Bolt™**

## HOW TO FIND REED DISTRIBUTORS

**BUY NOW »**

LOCAL OR ONLINE

To find the nearest Reed distributor, visit WHERE TO BUY on [www.reedmfgco.com](http://www.reedmfgco.com).

There is a section for FIND A DISTRIBUTOR which uses a zip code/postal code search to identify nearby stocking distributors. There is also SHOP ONLINE DISTRIBUTORS which links to vetted, stocking Reed distributors that also run online retailer websites.

Alternatively, contact Reed Sales or a Reed Regional Manager or Manufacturer's Representative to find a distributor.

# REPLACEMENT WHEELS

FOR EVERY PIPE & PIPE CUTTER

**BEST EVER!**

## ✓ **WHY REED? CUTTER WHEELS ARE BETTER...**

All Reed cutter wheels are made from high shock-resistant tool steel, while competitive wheels are made from carbon steel or still lower quality tool steel. By using this higher quality raw material, Reed cutter wheels can be made thinner and can therefore cut pipe more easily and leave less burr. Also, because of their higher quality, certified material, only Reed wheels can be heat-treated for the perfect balance between hardness and toughness to make the wheels resist breakage and last longer.

Reed pioneered the development of wheels for plastic pipe and today has the widest variety and highest quality wheels for various types and wall thicknesses of plastic pipe and tubing.

Reed offers the largest cutter wheel line for all types of pipe, tubing and conduit. Reed wheels are the best value for use in Reed cutters, or in the cutters of any other manufacturer.

**CUTTER WHEEL INTERCHANGEABILITY CHARTS P. 7-9**

**BE ON THE CUTTING EDGE WITH REED!**

Back

Front

The most popular types of genuine Reed cutter wheels (P. 7) are also sold in convenient, two-pack display bags for quick and easy showroom purchases.

\* Cutter wheels sold to distributors in standard package quantities only.

\*\* Blade Exposure determines wall thickness capacity of cutter wheel.

**Reed has the widest variety of high-quality wheels  
for more cutters and more brands than any other manufacturer!**
