

PIPE TOOLS & VISES
SINCE 1896

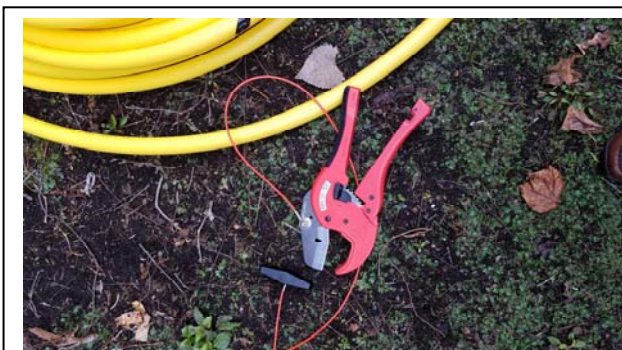

RSP2 ONE-HAND RATCHET SHEARS

- RSP2 is a true “one-hand” cutter for up to 2” nominal pipe.
- Ergonomic design fits comfortably into the operator’s hand.
- Pointed blade pierces and separates to cut; it does not squeeze or squish the pipe.
- U-shaped cradle supports pipe giving 3 touch points - 2 at bottom and main one on blade.
- Hardened steel blade cuts PE, PP, PEX, and ABS pipe.
- Quick release lever opens blade while safety latch keeps tool closed when not in use.
- Sharpen or replace blade for best cuts.

CATALOG NO.	ITEM CODE	MAX. CAPACITY	
		inches	actual O.D. mm
RSP2	04277	2" nom. IPS (2.5" actual O.D.)	63
RSP1	04276	1 1/4" nom. IPS (1.66" actual O.D.)	42

Ratchet Shears are NOT RECOMMENDED to cut PVC or CPVC for solvent cement weld connections because hairline fractures may occur. Instead use Reed Quick Release™ Tubing Cutters.

RSP2 #04277 with (optional) PEGRM Static Grounding Device #04622
