

# Cordless Power Water Pump

Battery adapter plates available for

several 18V-20V battery brands

Sealed switch for safety

# Pump Stick®

## Rugged. Versatile. Essential.

**Environmentally-friendly** and durable with battery power, portable Pump Stick® removes standing water, up to 15 gallons per minute.

**Power** with operator's own battery by choosing the Battery Adapter Plate.

**Long, slim design** allows pumping deep from small cavities as the pump is 38 inches from bottom tip to hose outlet. And, Pump Stick lifts water up to 12 feet above the base. Comfort grip handle at the top brings the pump to 4 feet for operational ease.

**Reaches** extra deep with the optional 24 inch comfort grip handle to bring total pump length to 66.5 inches, tip to tip. Add extra hoses and hose couplings to complete the set-up.

**Useful** everywhere, the Pump Stick is a must-have for contractors and maintenance departments.

### **Numerous applications!**

Standard

2' hose (.6 m)

CP15-38B

Secure, magnetic hose connection

Aluminum body for durability

#### Hoses

CPHOSE4FT	98144	4FT Hose with Magnetic Connection
CPHOSE7FT	98145	7FT Hose with Magnetic Connection
CP15COUP	98147	Hose Coupling
CPGHA	98256	Garden Hose Adapter

- Abrasion-resistant, industrial grade hose is crush resistant for reliable water removal.
- Smooth interior ensures efficient water flow.
- Plastic, lightweight hose resists corrosion and remains flexible at low temperatures.
- Hose design includes magnetic hose connecter.
- Requires Hose Coupling #98147 to connect hoses for additional length.

### Screens, Strainers & Filters

Install screens or filters inside end cap to keep secure during use.

CP15CRSCRN	98198	Coarse Screen, 3/pk.	CP15SCRFLTR
CP15MEDSCRN	98166	Medium Screen, 3/pk.	Filters out anything larger than than .034" from entering the pump. This is about the size of coffee grounds.
CP15FINESCRN	98167	Fine Screen, 3/pk.	Filters out anything larger than .021" from entering the pump. This is about the size of sugar granules.
CP15FILTER	98168	Felt Filter, 100 Micron, 2/pk.	Filters out anything larger than 100 microns (approximately .004") from entering the pump. This is about the size of flour. Use with screens #98166 or #98167 to hold position.
CP15SCRFLTR	98190	Screen/Filter Assortment contains fine screen (1) medium screen (1), felt filter (1)	Keep this assortment on hand to adapt to different water removal situations.
CPMSTR	98188	Marine Strainer, Stainless Steel, 1/pk.	Filters out anything larger than bigger than .250" from entering the pump. This is about the size of pea gravel. This strainer is recommended only for clean water transfer such as pools and spas.
CPRCSTR	98189	Strainer with Domed Center, 1/pk.	Strainer pulls water from the sides, not the bottom, to help prevent clogs and keeps larger material from entering pump.
