LETTER

Safe use of products and customer satisfaction are top priorities at REED. We strive to provide helpful and meaningful information regarding the tools we manufacture and sell. Safety data sheets (SDS) are provided when needed. However, some of our products pose no health or physical hazard and are classified as “articles” as defined by the Occupational Safety and Health Administration’s (OSHA) Articles. These items are exempt from the requirement of publishing Safety Data Sheets (SDSs). Title 29 of the Code of Federal Regulations, Section 1910.1200 (amended), specifically states that it does not apply to articles. These REED products meet the article definition. An article is defined in the standard as follows:

[1910.1200\(c\)](#)

Definitions. Article means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does

125 Years of Product Innovation and Service

not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees. (OSHA, 2020)

Private label products made and/or sold by REED also meet the article definition.

If more information is required, or if you have additional questions, please call +1-814-452-3691. Find product hazard information and Safety Data Sheets for other REED tools in digital format via <https://www.reedmfgco.com> or call +1-814-452-3691 for REED Sales.
